

STEMCON

SCIENCE-TECHNOLOGY
ENGINEERING-MATH
CONFERENCE IN VIETNAM

March 1 & 2, 2017 ■ Hanoi, Vietnam

brought to you by the Higher Engineering Education Alliance Program

The Higher Engineering Education Alliance Program at Arizona State University, VNU University of Engineering and Technology, and its partners invite you to our 5th Annual Conference:

STEMCON Vietnam 2017

Advancing the Future of Vietnam: Inspiring Students, Makers, Educators & Entrepreneurs to Innovate

Location: InterContinental Hanoi Westlake
Date: March 1-2, 2017
Time: 8:00 - 17:00 hrs.

Lunch included both days; Networking reception at close of conference

STEMCON was created to serve both public and private universities across Vietnam and the ASEAN region that are under pressure to expand and enhance their academic programs in the quickly evolving fields of Science, Technology, Engineering and Math. It has been designed to inspire educators to find new ways to encourage students to think outside of the box, along with better ways of engaging industry to ensure the relevancy of their students' education.

Faculty and university, industry, and government leaders at STEMCON will participate in two days of interactive plenary and technical sessions, panel discussions, exhibits and seminars that will pave paths for new ventures and partnerships via the HEEAP and Arizona State University extended network.

Conference Highlights:

- **STEMCON Showcase Exhibition:** selected innovative products and results of STEM makers from university, science, industry and startups.
- **Interactive Industry and Academic Panels** featuring General Electric, Amazon Web Services, and National Instruments.
- Hands-on technical sessions including, "**Women in STEM: How to Maximize Campus Resources & Opportunities**" and "**How to Leverage Learning Management Systems for Blended Learning and Teaching.**"

Registration is Now Open:

Online registration for this conference is required for all guests and invitees. Registration is limited and will be accepted on a first come basis. Online registration closes February 8th, 2017.
